

## DAILY NEVADA STATE JOURNAL

C. C. FOWNING, Editor and Proprietor.

## THE SENATE COMMITTEE.

The Elko Independent chirps as follows: We would like to know what benefit have accrued to irrigation and arid lands by the junketing tour of the Senate Committee on Irrigation on the Pacific Coast. It is said that it is not the intention of the Government to build dams and store water, and that whatever is accomplished in that direction will have to be done by private capital. The Senate Committee has traveled over the country in a Pullman Palace car, visited the principal towns and cities where they have been fed, feasted and driven in fine carriages through the principal streets, but what has that to do with the irrigation of lands? It may be that their trip through the Pacific Coast States is "read east upon the waters to be gathered after many days," but we must confess to being somewhat skeptical.

## RUSSELL SAGE.

He Says He is a Metallist and Satisfied with the Position of Silver.

New York, Sept. 3.—Russell Sage has been interviewed on a variety of topics. He said: "The Treasury is troubled to find storage room for its silver. Some might say this meant silver inflation. I won't stop to argue that now. I am satisfied to leave the silver question as it is now. Congress has not gone too far in silver legislation. I am a bimetalist, and believe in protecting the products of the country, of which silver is one. We have always used silver as a currency, and can well afford to let well enough alone and still continue the conservative use of silver."

## Building at Los Angeles.

A Los Angeles paper prints an incomplete list of buildings in course of erection in Los Angeles. The list is a long one, and shows an average of five buildings of all kinds per day, or about two thousand for one year.

The Hon. W. S. Capeller, editor of the Mansfield (Ohio) News, discussed "The Nature and Limit of the Obligation of the Newspaper to its Party" at the National Editorial Convention in Detroit. In summing up Mr. Capeller gave five points which he considered most important in the limit of obligation. These were:

1. Unswerving fidelity to the principles of the party.
2. Promulgation of absolute truth in political discussions.
3. The avoidance of undignified personalities.
4. Discussion of principles upon logical grounds.
5. Advocacy of good nominations, uninfluenced by monetary consideration or personal favoritism.

The Butte Inter-Mountain keeps standing at the head of its editorial columns the following lines from Major Maginias' Fourth of July speech: "I trust that never will we be so debased by the plutocratic or corporate influences which it is claimed will dominate our elections so that the philosophic stranger sitting in the galleries will point to our chairs in the council-off of the nation and say: 'There sits the latest purchaser of a seat in these chambers from the newest rotten borough in the West.'"

It is announced by the Napa Reporter that a number of horsemen have determined to establish an immense farm for breeding horses near that place. During the last fair at Napa it is said these horsemen discussed the matter, and came to the conclusion that all the conditions were most favorable for such an undertaking. A farm was bonded, and arrangements were made for entering upon the business on a large scale within the next three months.

In the elections this Fall, in addition to the four new States which vote in October, five States—Massachusetts, Mississippi, New Jersey, Ohio and Virginia—will elect Governors and State officers. New York will elect State officers, except Governor and Lieutenant Governor, a Judge of the Court of Appeals and a new Legislature, and Maryland, Nebraska and Pennsylvania will elect certain minor State officers.

It is worthy of note that while last year at this time the actual surplus in the treasury was about \$107,000,000, it is now reduced to below \$40,000,000, and this in spite of the fact that the price paid for bonds is 1 per cent. below the figures prevailing a year ago. The financial situation is healthy and encouraging.

Experts are pretty well agreed that the wheat crop of the country this year will not fall short of five hundred million bushels. This will allow a wheat surplus for export of not less than one hundred and twenty-five millions, as against ninety-five million bushels last year.

Recent political events in Iowa have resulted in a triumph for Senator Allison, and his return to the Senate for another term is now assured. Senator Allison is one of the ablest men in the Senate and Iowa does well not to retire him.

The latest candidate for Senatorial honors in Ohio is M. E. Ingalls, the railway magnate. He has always been a Democrat. Mr. Ingalls is a leading member of the celebrated Committee of One Hundred at Cincinnati.

What is the matter with Hon. Frank Eganitt for Governor? He is honest, brave and popular.—Gazette.

"He is all right, but who is in your mind to succeed him as State Senator?"

"The position of Chief of the Bureau of Statistics, now held by W. F. Switzer, of Missouri, has been tendered to S. G. Brock, of Missouri, a defeated candidate for Congress at the last election."

Cassidy will go down in history in Nevada as the first Democrat who ever resigned a Federal office. The other boys let go hard.

Now let Geraldine, Cartoon and El Rio Roy go together.

## IRRIGATION MATTERS.

What Has Been Done in the Way of Selecting Sites for Storing Water and Reclaiming Arid Lands.

WASHINGTON, Sept. 4.—J. C. Pilling, Acting Director of the Geological Survey, has reported to the Secretary of the Interior, concerning the progress made during January in the survey for irrigation and reclamation of arid lands in the West. The total area surveyed was 3,650 square miles. Operations are being continued in California, Colorado, Idaho, Montana, New Mexico and Nevada.

In the hydraulic division one field party in California has commenced a thorough survey of Clear Lake, with a view to ascertaining its capabilities as a reservoir site.

Donnor Lake, near Truckee, in the Western Nevada section, is being surveyed, and it is thought that by the construction of dams two miles below the lake's outlet a large body of water can be stored at a very moderate cost.

The work in the Rio Grande section was confined to a careful survey of a very large reservoir site which seems practicable by the construction of a dam in the Rio Grande river, near El Paso. This project, report says, is one of profound interest, and perhaps will involve international questions.

## COLUSA COUNTY IRRIGATION.

Bonds to Be Put on the Market in Two Districts.

ORLAND, September 3.—To-day the directors of the Kraft Irrigation district, ordered advertisements for offering \$50,000 in bonds of the district for sale on October 1st. This amount is of the issue of \$80,000 voted for constructing irrigation works in the district. The district contains 14,000 acres north of Orland.

The Southside Irrigation district also ordered \$50,000 in bonds of the issue of \$100,000 voted for the construction of irrigation works. The bids to be opened October 1st. There is not much doubt entertained but these bonds will sell, as the districts are organized the same as the Central district, which the Supreme Court declared legally organized. The two districts embrace 40,000 acres of excellent land for irrigating. It is thought that the advancement of these districts will build up country and town. Considerable life in the way of improvements is manifested already as a result of the organizations.

## SHE IS ALWAYS DOING GOOD.

Mrs. Stanford Takes Charge of Five Little Orphans.

## Red Bluff Sentinel.

Many times the remarkable changes which are wrought by the vicissitudes of time are brought forcibly to mind, but one has just transpired which we think needs special mention. A few years since a large land owner lived in Butte county by the name of Nord, for whom the town in that county was named. Like thousands of other early Argonauts, e'er the snows of Winter had silvered his hair, fate ruled against him, and his possessions were gone. His wife died a year or two since, and the stricken man was left to make a living for five children—one a young babe—by the sweat of his brow. Last week while laboring in the forests near Sisson's, he, too, was called to go. The citizens immediately took the matter in hand, to see that he was given a Christian burial, and in a short time raised about thirty-five dollars. Thinking only of a "merciless corporation" and not understanding the nature of that noble Christian woman, Mrs. Stanford, standing in that resort, the committee did not call on her, afraid to enter into the presence of one so renowned. Scarcely had they left the hotel when an inquiry brought to Mrs. Stanford's ears the cause of their visit. Immediately a messenger was dispatched to the camp, and the purse made heavier by fifty dollars.

What would be done with the poor, homeless orphans now agitated the breasts of more than one, but their troubles were soon allayed. With the generosity born of a Christian spirit, Mrs. Stanford called for the babes. "If this is the family I once knew, I will see that the little ones are taken care of," said she. And without more ado they were taken on board the private car of the Senator, and the next day, under her protecting care, were carried to Mrs. Stanford's home in the city.

## STANFORD UNIVERSITY.

Instruction to Be Commenced Next Year—Arrangement of the Buildings.

The Bulletin says: None of the Stanford University buildings will be in condition for beginning instruction this Fall term, but by a year from now it is calculated to begin educational work.

With the idea of stamping upon the University its general character from the outset, the buildings are now being prepared for the simultaneous operation of its various departments. The fitting and furnishing of the buildings are to be made to suit the ideas of the most experienced professors.

The interior measurements of the largest quadrangle, which is now surrounded on all sides by the new buildings, are 580 feet in length by 245 feet in width. The quadrangles to the right and left will be somewhat smaller. An arched walk extends all around the quadrangle, and beyond it are the eight complete buildings, while the ninth, the chapel, is now in course of construction. Between the two front buildings is the large archway of stone, and directly across the quadrangle from it is the chapel with its tall tower. In addition to these buildings the engine-house, boiler-house and one of the workshops, all distinct buildings, have been finished. To the left, and in front of the quadrangle buildings is the dormitory for boys, while to the right the dormitory for girls will soon raise its walls.

Mrs. Mackay's Youthfulness.—Mr. and Mrs. Mackay, of bonanza fame, are at the Louisville Hotel, Bar Harbor. A writer in the Bangor Commercial thus refers to Mrs. Mackay: "A woman ample rather than large or over tall, but of commanding figure and presence; jet black hair and eyebrows, the latter very arched and thick; dark, brilliant eyes, a slightly olive skin, well-cut features, a little inclined to Roman prominence; shoulders, bust and arms of statuesque mold, a truly regal-looking woman, conscious of her power and consequence, but equally suggestive of large generosity of nature. What amazed me most was her youthfulness. From her history, which is pretty well known, she ought to be a woman upwards of fifty; in actual appearance, however, she looks about thirty-five at the utmost."

## Cost of a Great Exposition.

With the idea of obtaining information regarding the probable cost of the projected exposition at New York in 1892, the Director of Finance of the Paris Exposition has been asked for an estimate of the receipts and expenditures of that great show. He estimates the receipts at \$9,700,000 and the expenses at a little over \$9,000,000. Of the receipts, \$4,700,000 comes from the public in some shape, either in subscription to bonds, from sales of tickets or from sales of concessions. The remaining \$5,000,000 of receipts are derived from a State subsidy of \$3,400,000 and a city subsidy of \$1,600,000.

## NEW TO-DAY.

THE M'KISSICK OPERA HOUSE.

## OPERA HOUSE DRY GOODS STORE.

# THE OPERA HOUSE

## Dry Goods Store.

This store is now being generally known all over the State of Nevada as the popular

### ONE PRICE

Dry Goods House, and its proprietor, C. W. Booton, is well known as the

Revolutionizer of Prices and Re-adjuster of Values

### STAPLE & FANCY DRY GOODS

CENTS' FURNISHINGS,

HOUSEHOLD FURNISHINGS,

READY-MADE CLOTHING

And BOOTS AND SHOES.

Please note the various reasons by which I claim I have advantage over all competing houses:

- 1st. I BUY FOR CASH, and cash only.
- 2d. I VISIT THE MARKETS IN PERSON, frequently, and buy my own goods myself, for the lowest possible spot cash price.
- 3d. MY AIM AND AMBITION IS BIG BUSINESS, quick sales and small profits. This is what I claim and what I hustle for. Having this object in view—to give everybody good value for their money—success is already achieved, as I challenge anyone to dispute that I make the lowest prices.
- 4th. MY STORE IS THE THE LARGEST AND BEST LIGHTED OF ANY in the city—the three large plate-glass show windows which ornament the building would do credit to any large store in a large Eastern city, light being of great importance in any well-regulated store.
- 5th. I ENGAGE THE BEST AND MOST EXPERIENCED AND SKILLED SALESMEN that can be found in this country. W. R. Lett has full charge of my store; his experience is second to none in this country, having had charge of departments for many years in the leading houses of New York City.
- 6th. I DO JUST AS I ADVERTISE; I do not advertise my goods at cost, as no intelligent person could swallow so silly an announcement as that. Nevertheless many of our merchants of to-day advertise under the head of selling goods at cost.
- 7th. ALL GOODS ARE MARKED IN PLAIN FIGURES, and no goods are misrepresented.

HAVING GIVEN SEVEN REASONS WHY I LEAD ALL COMPETING houses in prices, I will venture still further to convince the general public by mentioning the contents of the different departments, thus showing that I carry an enormous and well-selected stock, which can only be fully realized by calling and examining the goods of the different departments.

### In the Colored Dress Goods Department

I keep all the leading shades in plain colors, including fine French Cashmires, French Camel's Hair, French Cloth, French Fines, French Cloths, French Linens, Albatross, Nans' Veiling, French Dubois, Fancy Striped Alpaca in plaids and stripes. I keep all the leading patterns found in the market.

### The Black Goods Department

I am well stocked with all the latest and best-known brands of French Cashmere, French Camel's Hair, French Cloth, Albatross, Nans' Veiling, Sicilian Cloths and all the leading brands of Black Alpaca, Black and Colored Silks in all the different makes.

### The Corset Department

Requires special attention, as I carry all the leading makes, including the famous C. P. Corset, and also the P. D., which I sell at prices that defy competition.

### The Kid Glove and Button Department

Is replete with all the shades that can possibly be obtained this side of the Rocky mountains.

### The Hosiery Department

Deserves special mention, as I have been supplying it during the past two weeks with the very best brands of Ladies' Cotton and also Wool Hosiery that are manufactured on this coast. My stock of Ladies' Hosiery, Children's and Men's Hosiery is unsurpassed in the city. Passing on we come to the

### Shoe Department.

This is a special branch that I have added to my business by special request of my customers, who continually urged me to put in a stock of Boots and Shoes, claiming, as they said—I using their own language—they were tired of paying high prices any longer. I subsequently ordered the above stock, and will say that my success in that department has exceeded all my expectations. Men's and Boys' Shoes a specialty. Men's Shoes from \$2.50 up.

### In the Clothing Department

I cannot do it justice by venturing to describe the success that continually attends it. I can only add one passing remark—that the amount of clothing I have sold during the past year is a just guarantee that the public never fail to appreciate a ONE PRICE cash business. I sell suits for men from \$5 up.

### In the Underwear Department,

Including Ladies' and Gents', I positively state that I sold more of these goods last season than any two competing houses. Knowing this, and then looking forward to an enormously increased trade in this line this coming Fall and Winter, I have spared no pains and have left nothing undone to secure one of the largest and best-selected stocks of Underwear ever brought to Reno. This true assertion will be more forcibly strengthened by anyone doubting it to call and examine the stock.

### In the Domestic Department

I carry all the principal makes in Sheetings, Pillowcase Muslins, etc. Gingham and Calicoes in endless variety.

Thanking the People of Reno and the Public in General for their Kind Patronage for the Past Year, and Soliciting a Continuance of the Same, I Remain, Respectfully,

C. W. BOOTON,

Opera House Dry Goods Store.
